RETAILER STEPS

1. Download the My Panda App

2. At least 2 hours prior to delivery time, submit a Custom "Everything Else" request. Indicate in the notes "alcohol delivery" and approximately how many deliveries will be made.
3. Have orders pulled with purchase orders with delivery addresses.
4. Panda will make all deliveries with any special instructions and will follow all state guidelines for delivery.
5. Charge is \$15 for the first 30 minutes and then \$7.50 for each 15 minutes. Billable time starts when Panda arrives at the store and ends when they make the final delivery. NO other charges or fees! Your card on file will be charged when Panda completes all deliveries.
6. If a delivery cannot be made for any reason, the Panda will return the product the same day and communicate all issues with the store.

** All products must be paid for prior to delivery being made. We recommend batching multiple orders into one request for maximum efficiencies.
